## JACKSON COUNTY BOYS "WITH THE COLORS"

Mont Dixon, of near Gladdice, has received the following letter from his son in France.

Somewhere in France, July 17, 1918.

Dear Father and Mother:

We arrived at our destination yesterday. Was sure glad to get here, for I was tired and sleepy. We are about 100 miles from the firing line.

We had a nice trip over and I didn't get sea sick. We didn't have any trouble with the U boats and the trip was uneventful.

I have seen some beautiful country since I have been over here, and like it fine so far.

Don't worry about me for I am coming back soon, for the Dutchmen can't hold out much longer. Write me often and tell all the news.

With best wishes and love to all.

Your son,  
Corp. John L. Dixon,  
Field Hospital Co. 358,  
315 Sanitary Train.

George Stafford writes the following to his father, J. H. Stafford, of this place.

Somewhere in France, August 8, 1918.

Dear Dad:

While I have time will write you again to let you know that I getting fine.

I don't think I will have to write very many more letters, for the Germans are on the run and I think they will stay that way. Believe me the American boys are giving them hell, and they are getting stronger ever day, so I don't think Germany can hold out much longer. They are a cowardly bunch, and will only fight until they see they are going to loose and then surrender to save themselves. They are beginning to realize now that we can fight, and that we have some aviators too.

We get the American papers here, and besides we talk to men from the front every day, which keeps us informed on the war.

I am going to Paris next Sunday sight-seeing, and the next time I write will tell you all about it.

I am learning to speak French fast and have lots of fun trying to talk it. The French people think there is nobody like the American soldiers, so that makes it nice for us.

I have not met any one from home yet that I know. Suppose

there are but few in this branch of the service from around home. We have a fine bunch of fellows

in our company and we get along fine together.

Will close for this this time. Will write again soon. Your son,

George D. Stafford,  
15 Co. 3 Motor Mechanic  
Regt., A. F. O. 702.

## What The Packers Do For You

Not very many years ago in the history of the world, the man that lived in America had to hunt for his food, or go without.

Now he sits down at a table and decides what he wants to eat; or his wife calls up the market and has it sent home for him. And what he gets is incomparably better.

Everyone of us has some part in the vast human machine, called society, that makes all this convenience possible.

The packer's part is to prepare meat and get it to every part of the country sweet and fresh—to obtain it from the stock raiser, to dress it, cool it, ship it many miles in special refrigerator cars, keep it cool at distributing points, and get it into the consumer's hands—your hands—through retailers, all within about two weeks.

For this service—so perfect and effective that you are scarcely aware that anything is being done for you—you pay the packers an average profit of only a fraction of a cent a pound above actual cost on every pound of meat you eat.

wift & Company, U. S. A.

## Cumberland University, Lebanon, Tenn.

## YOUNG MAN,

If you are 18 years of age, or over, and prepared for college,

## Enroll in Cumberland University

and as soldier of the United States receive all expenses and the pay of a private in addition. The Government will pay your board, room-rent, tuition and fees, and provide your uniform.
